Subject: Fiduciary rule changes

Please be aware that we service several thousand clients that have accumulated over 30 years with us. If this rule passes it will probably cause most of these clients to not any longer be served due to such high administrative cost and risk(due to the proposed fiduciary ruling if passed in its current form). This will be a disgrace and form of social control that will hurt the clients on the lower end(less than 250k). Its a shame our government could allow(once again) for the most unfortunate to suffer just to help out the "well to do". Please disregard the special interest group's and allow the unfortunate to continue being able to receive excellent service on their retirement plans. Please consider our precious clients and our situation.

Yours Truly,
